Quick Canva guide

Not a designer? No problem, here's how to make the most of your templates:

1. Update the sample @company tag with your own handle and feel free to upload your logo if you'd like to personalize your design even more.
2. Update the text to match your brand voice.
3. Swap colours (optional) to match your palette.
4. Add your own photos — authentic images connect best.
5. Download and share directly from Canva.

Need some inspiration?

Stuck on what to post? Try one of these:

- What makes my brand different, and why that matters to my clients.
- The story behind my business, brand name, or logo.
- How I help my clients save time, money, or stress.
- A sneak peek of something new I'm working on.
- A client transformation or success story.
- A behind-the-scenes moment that shows what really goes into what I do.
- My favorite part of the process (and why it lights me up).

Keep the *momentum* going

Congratulations! You now have the tools to confidently share your brand, tell your story, and keep your creative energy flowing.

Remember: Consistency is key. Small, regular actions build long-lasting recognition. Whether it's posting a story, sharing a client win, or trying a new idea, every step keeps your brand moving forward.

Momentum Nugget: Your voice, your story, your creativity. That's what sets your brand apart. Use these templates and prompts as a springboard, then make them yours.

We can't wait to see how you make them shine. Here's to building momentum, one post at a time!
